SUMMARY

Software Engineer with hands-on experience in full-stack web development, specializing in building scalable and user-focused applications. Proficient in **JavaScript, React.js, Python, Java, Node.js, C#, ASP.NET, Express.js, MongoDB, and MySQL**. Passionate about Artificial Intelligence, problem-solving, and developing clean, efficient, and maintainable software solutions. Eager to contribute to innovative projects while continuously expanding my technical expertise.

EXPERIENCE

Full Stack Developer

DevelopersHub Corporation

March 2025 – May 2025

- Designed and developed Startup and investor-focused web applications using React.js with a clean, scalable UI architecture.
- Built and integrated backend services using **Supabase** and **MySQL** for secure data management and real-time updates.
- Collaborated with stakeholders to translate investor requirements into high-performance, responsive web solutions.

Full Stack Developer

Internee.pk

April 2026 – June 2026

- Developed responsive and interactive web applications using **React.js**, implementing reusable components and modern frontend development practices.
- Built dynamic user interfaces with **JavaScript (ES6+), HTML5, and CSS3**, ensuring cross-browser compatibility and mobile responsiveness.
- Integrated REST APIs and managed application state to deliver seamless user experiences and efficient data handling.

PROJECTS

LetsBuilt

<https://letsbuilt.vercel.app>

- Built a full-stack construction management platform using **Next.js**, **TypeScript**, **Clerk**, **Drizzle ORM**, and **Neon PostgreSQL**.
- Implemented secure authentication, type-safe data validation with **Zod**, and responsive UI using **Tailwind CSS**.

NeuralChatbot – AI Chatbot

<https://chatbot-neural.vercel.app>

- Built an AI-powered chatbot using **React (Vite)** and the **OpenAI API** for real-time conversational responses.
- Developed a responsive chat interface with Tailwind CSS and implemented efficient API integration and state management.

DeskFlow – Coworking Space Booking Platform

<https://deskflow-toi6.vercel.app/>

- Built a full-stack coworking space booking platform using the **MERN** stack with secure authentication and booking management.
- Developed RESTful APIs, integrated **MongoDB**, and designed a responsive UI for seamless workspace reservations.

EDUCATION

Karachi University (UBIT)

Bachelors in Software Engineering

2022 – 2026

Coursework: C#, Python, OOP (Java), MySQL, Operating System (Linux), Compiler Construction, AI in software, Internet programming technique (MERN), Software project management, Data mining, Data warehousing.

SKILLS

- **Frontend Development:** HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, Vanilla CSS
- **Backend Development:** Node.js, C# Python, Java, Express.js
- **Databases Management:** MongoDB, MySQL
- **Tools and Technologies:** Git, GitHub, Visual Studio Code, IntelliJ, Jupyter, Replit
- **Soft Skills:** Problem-solving, Team collaboration & cross-functional teamwork, Presentation Skills, Decision Making, Multitasking, Communication & Collaboration, Adaptability to new tools, technologies
